Sheriff Colyer went to Afton, I. T.
last week and returned with Frank
Lauderback, one of his trusty pris-
oners who ran away a few weeks ago.

The execution of Jake Brown, col-
ored, which was to have taken place
at Jefferson City Friday, was post-
poned by the sheriff that his sanity
might be enquired into.

J. B. Good of Lewis station, near
Clinton, Mo., was arrested on
charge of stealing a carload of beef
cattle from Jacob Showalter and
shipping them to Kansas City where
he sold them.

Jno. T. Davis, a well known busi-
ness man of St. Louis, and reputed to
be the richest man west of the
Mississippi river, died at his home
in St. Louis last week. He was esti-
mated to be worth twenty millions.

The city council at Nevada is
evenly divided between the two
parties, and a dead lock exists over
the appointments of the mayor, who
is a democrat. The republicans de-
mand half the appointive offices and
the mayor refuses to grant the re-
quest.

Increase the appetite by the use
of Ayer's Cathartic Pills. They cause
the stomach, liver, and bowels to
perform their functions properly, do
not debilitate, by excessive stimula-
tion, and are not irritating in their
action. As an after dinner Pill they
are unequalled.

No small objection which young
folks had to the old time spring
medicines was their nauseousness.
In our day, this objection is remov-
ed and Ayer's Sarsaparilla, the most
powerful and popular of blood puri-
fiers, is as pleasant to the palate as
a cordial.

Ex-Cashier Crawford, of the de-
funct American National bank, at
Springfield, Missouri, has been in-
dicted. There are ten counts in the
indictment, six for making false en-
tries, one for making oath to a false
statement, and three for embezzling
\$15,500.

The Putnam Democrat says their
people want a democratic county
court. They have been paying tax-
es for a long time, and would like
to know what has become of the
money. The county has no court
house, no jail no roads, and the
present county court is incompetent.

The Monroe County Appeal says:
"It must keep the farmer tolerably
busy to watch for all the traps laid
for his special downfall. The latest
scheme is worked by a fellow who
calls upon the farmer and pays him
\$5 for the privilege of posting bills
on his fence. He takes a receipt for
the amount and in a few days the
bank does the rest."

The oil excitement is still on at
Rich Hill, and representatives of
Guffey & Galey Co., of Pittsburg,
Pa. are in Osage township taking
options on land for prospecting pur-
poses. They have secured quite a
number of leases so far, among
whom we noticed from the Review
are: H. C. Reese, Standish & Hor-
ton, J. H. Olive, and J. H. Culbert-
son.

ceremony took place at the residence
of the bride's parents at 8 o'clock
and was witnessed by only a few
of the friends of the contracting
parties. The Times extends con-
gratulations and best wishes to the
happy couple.

CATARRH OF PELVIC ORGANS.

A Class of Diseases Not Generally
Understood.

It is a popular impression that cat-
arrh is a disease confined to the
mucous membrane lining the nose,
throat and bronchial tubes and oth-
er of the respiratory organs. The
real fact is that all the mucous mem-
branes, wherever located, are subject
to catarrh, and unless recognized and
properly treated chronic ailments
are sure to follow. No organ of the
whole body is more frequently affect-
ed than the bladder. The symptoms
of catarrh of the bladder are: fre-
quent voiding, which is generally
scant in quantity and highly colored
with a thick white or slightly pink-
ish sediment. Catarrh of the blad-
der is also liable to extend downward
to the pelvic organs. This will soon
cause smarting and sometimes diffi-
culty and pain. In females the ex-
tension of the catarrhal disease is
certain to involve the female pelvic
organs, and produce leucorrhoea,
painful periods and bearing down
pains.

In taking Pe-runa for catarrhal
affections of these organs a table-
spoonful four times each day is suf-
ficient for cases of ordinary severity,
but there are acute cases for which
it is necessary to take six doses each
day to get the full benefit of the
treatment. Old persons who are
annoyed by frequent calls and burn-
ing pains day and night, never fail
to find complete cure by a few
month's faithful use of Pe-runa.

There were lots of democrats in

S. T. Broadus, of Rich Hill, called
on the Times Monday. Mr.
Broadus has been frequently men-
tioned in connection with the office
of recorder and has many friends
who are urging him to make the
race.

In former years the republicans
said poor "old Missouri," later they
wanted to stand up for "new Mis-
souri," and now they have the
cheek to say they are going to "car-
ry Missouri." These Missouri re-
publicans are great fellows to toot a
tin horn and make monkey faces.

Our young farmer friend Elmer
Garner, of near Virginia, called to
see us Friday. He said the farmers
were busy planting corn. The oats
crop killed by the recent cold snap,
had been replanted and the wheat in
that section was looking well.

Judge Lyons, of the St. Clair
county court, confined in jail a Kan-
sas City for refusing to make a levy
to pay the railroad bonds of the
county, has weakened and consented
to make the necessary levy. He says
he does not desire to make a martyr
of himself for fun.

The canning factory bubbles which
have been so actively blown through-
out the state are bursting. There is
no money in them except when judi-
ciously managed by those who under-
stand the business. Company man-
agement generally results in a failure.
It is a reputation of the creamery
experience. The prices paid for farm
products are said to be too low to
justify the growing of the crops
needed.—Nevada Mail.

The ex-Confederate reunion at
Birmingham Ala., next week prom-
ises to be the best attended affair of
the kind that has yet been held.
Like the Union veterans, the former
wearers of the gray are marching
rapidly toward the end of active life.
Each reunion represents to a con-
stantly increasing number the last
that they will be able to attend.
There is the greatest pressure, both
from within and without, brought
to bear upon each comrade as the
time for the annual encampment
rolls around, and it is not strange
that the re-unions increase instead
of decrease in interest.—K. C. Times.

Hon. Richard Dalton, collector of
customs at St. Louis, says that every
day he sees more and more of the
iniquities of our tariff system. He
says he never realized before the ex-
tent of the robbery constantly, daily
being committed in the name of the
law. Take the instance of one re-
cent importation of that \$1,000
worth of cotton hose brought from
Germany and the tariff tax collected
in the St. Louis custom house was
\$773. Here is a tax of 77 per cent
on this article of every day necessity
to common people. What justifica-
tion can there be for any such enor-
mous tax? The millionaires howl
because it is proposed to tax them
2 per cent on all over \$4,000 of their
income; yet here is a tax of 77 per
cent on the consumption of the com-
mon people.

A Girl Buried Alive.

Sioux, City, Io., April 10.—A few
days ago a 15-year old daughter of J.
Luckish, a Bohemian living at Cres-
cent, died suddenly. The day before,
she had a tooth pulled, and an an-
aesthetic was administered during
the operation. The next morning
she was found dead in bed. Two
or three days later some of the
friends of the family, who feared
that she had been buried alive, se-
cured the permission of the parents
to have the grave opened, and then
it was found that she had, as was
suspected, been buried alive. The
glass in the coffin was broken to
fragments, the body was in a condi-
tion of fearful contortion, the hands
were cut and bloodstained. The
hair was torn out, the body turned
over and found face downward.

CAUGHT IN THE ACT.

Michael Mason a Burglar and Thief.
Michael Mason, a German living
near the depot, won't join Cox's
army. Monday night he burglarized
the store of S. C. LeMar & Co. at
the depot and now he languishes in
jail.

A tramp, sleeping in a box car,
saw him enter the store and noticed
the night operator at the depot, who
in turn informed manager Young of
the store, and in company with A. H.
Lamb and W. A. Duvall, the party
went to the home of Mason, which
is just across the track from the
store, and arrested him as the thief.
A search of his house revealed four
or five sacks of flour which had
been taken from the store. Two of the
sacks had been emptied into a box
and the others were placed under
a table. When the party asked per-
mission of Michael to make a search
of the house, he offered no resist-
ance and remarked "if I'm convicted,
I'm convicted."

Mason, up to a short time ago,
had been employed by the firm of
LeMar & Co., to handle grain and
do the heavy work about the eleva-
tor and store. He has a wife and
several children and no doubt his
incarceration in jail will leave them
in a bad fix.

George W. Kelley of Allen county
Kansas, formerly a prominent citizen
of this county, is here on a visit to
old friends. Uncle George, as of
old, a true die-in-the-wool democ-
rat and says he expects to cast his
last vote in that party.

Our young friend and popular
democrat, J. M. Walker, of Pleasant
Gap township, while attending the
convention Monday favored a sub-
stantial. He says the democrats
are active and enthusiastic in
his township and anxious for the
time that they may give the lie to
the oft repeated assertion that the
party is losing strength.

Took Morphine.

Mrs. Morris White, nee Lewman,
residing on East Walnut street, at-
tempted to take her own life about
12:30 o'clock this morning by taking
a large dose of morphine. Dr. Had-
dock was summoned and by the aid
of antidotes restored her to con-
sciousness and it is thought she will
get well. The motive which prompt-
ed this step toward self destruction
is not known, but it is supposed to
have grown out of domestic trouble.
A Review reporter who called at the
residence this morning was refused
the particulars, consequently the
true state of affairs cannot be given
at this writing.—R. H. Review.

Serious Result of a Joke.

Sedalia, Mo., April 11.—Ollie Rob-
erts, aged 12, was given a cigarette
that had been loaded by a boy com-
panion last night. No sooner had
a match been applied than an explo-
sion followed and the sight of the
boys right eye was ruined.

"For Years."

Says CARIE E. STOCKWELL, of Chester-
field, N. H., "I was afflicted with an
extremely severe pain in the lower part
of the chest. The feeling was as if a ton

weight was laid
on a spot the size
of my hand. Dur-
ing the attacks, the
perspiration would
stand in drops on
my face, and it was
agonizing for me to
make a sufficient
effort even to whis-
per. They came
suddenly, at any
hour of the day or
night, lasting from
thirty minutes to

half a day, leaving as suddenly; but, for
several days after, I was quite pros-
trated and sore. Sometimes the attacks
were almost daily, then less frequent. After
about four years of this suffering, I was
taken down with bilious typhoid fever, and
when I began to recover, I had the worst
attack of my old trouble I ever experienced.
At the first of the fever, my mother gave
me Ayer's Pills, my doctor recommending
them as being better than anything he
could prepare. I continued taking these
Pills, and so great was the benefit derived
that during nearly thirty years I have had
but one attack of my former trouble, which
yielded readily to the same remedy."
